# COMPANY PROFILE

## LEADERS IN CRANE LIFTING, RIGGING & TRANSPORT SERVICES IN AUSTRALIA

Established in early 2011, General Crane Services (WA) Pty Ltd was founded by Eric & Nick Bucciarelli, third generation crane owner/operators with extensive experience in the industry and a deep commitment to customer satisfaction. Wholly owned and operated in Western Australia, General Crane Services is committed to providing quality crane, lifting, rigging and transport services.

With a long combined history of experience in the mobile crane industry, our team has extensive knowledge across a broad range of lifting services, specialising in metro taxi hire, mining and construction.

Our business takes pride in its ability to provide comprehensive and highly skilled services, offering exceptional levels of reliability, flexibility and quality of service.

Our operators have strong technical capabilities, and focus on both safety and efficiency with an excellent track record for meeting the challenges of every task.

We are dedicated to not only meet but exceed the expectations of our clients. Our philosophy is to deliver timely, reliable, cost effective customer service on every project, large or small.

**TO DEVELOP AN  
EFFICIENCY DRIVEN CULTURE  
THROUGH DEMONSTRATING  
INTEGRITY AND HIGH ETHICAL  
STANDARDS**

# OUR MISSION, VISION & VALUES

---

## OUR MISSION

To develop an efficiency driven culture through demonstrating integrity and high ethical standards across all aspects of mobile lifting & rigging solutions.

## OUR VISION

To be the first-choice crane company in WA by delivering the highest level of service both safely and efficiently.

- Best in every aspect of the business
- Reputable
- Heavily focused on customers
- Profitable
- Safety & environmentally focused
- Reliable

## OUR VALUES

- An unwavering commitment to customer service
- Building and maintaining trust in our relationships to ultimately assist with increasing their business potential
- To provide effective management and superior services both onsite and in our administration
- To retain high quality staff by providing a safe, healthy and caring environment for our employees; and maintaining a high calibre of staff by pursuing ongoing professional development and training
- Dedication to providing value for money by regularly revisiting internal processes to ensure the highest level of productivity; and
- Demonstrating integrity and high ethical standards across all company practises

# PROJECTS & THE TEAM

---

## BROAD RANGE OF CAPABILITIES. 24/7 RESPONSIVENESS

General Crane Services is engaged in multiple projects through the regions of Western Australia.

The primary function is to supply complete, fully maintained mobile fleets engaged in all activities. The projects are supported by 24 hour maintenance teams including management, trades personnel and support staff.

### **AN EXPERIENCED AND RESPONSIVE TEAM**

With 24/7 contact availability, the General Crane Services team can respond quickly to client needs.

Our team have deep and extensive knowledge across a broad range of projects large and small, with years of experience across the industry.

We pride ourselves in providing services and customer support to the highest standards safely, whilst offering cost effective crane hire and related services.

# HEALTH, SAFETY, ENVIRONMENT & QUALITY

## BEYOND COMPLIANCE

General Crane Services is committed to the health and safety of all our people and to the protections of the environment in which we operate. We have set objectives and targets for our people, the environment and the community and work towards the achievement of this through education, training and support of management and supervisors.

### OCCUPATIONAL HEALTH & SAFETY

It is our intention to establish high levels of Health and Safety standards throughout our organisation. This commitment ensure General Crane Services is able to meet the challenge of the changing environment and the demands of industry, which is intent on improved safety practices, productivity and competitiveness.

General Crane Services management team is actively involved in the management and planning of Health and Safety. We encourage our employees to be active in observing and recommending changes in the workplace to reduce exposure to any risks and hazards.

### ENVIRONMENTAL

General Crane Services is committed to the adoption and maintenance of environmental management and operating practices, which ensures the continual improvement of environmental performances. We regard the protection of the environment to be an important aspect of our operations and a necessary element of good corporate citizenship.

Our Environmental Management System operates in tandem with our Quality Management System to recognise and control the environmental impact of all organisational activities.

### QUALITY MANAGEMENT

General Crane Services enables the achievement of its purpose and mission by utilising an integrated management system. This system integrates all components of the business and incorporates formalised systems focusing on quality, health, safety and environment. We believe that people are one of our most valuable assets. Our people – through their quality of service and skills – and with the proper use of our systems and procedures, endeavour to meet the needs and requirements of all clients.
